

Invitation to Bid

Town of Royalton

Post Farm Road Ditching and Erosion Stone Project

The Town of Royalton received a grant from the Department of Environmental Conservation's Municipal Roads Grants-in-Aid program. The Town of Royalton is soliciting proposals from qualified bidders for a project on Post Farm Road involving ditching and placement of 7-inch erosion stone into 2196ft of roadside ditch per DEC's Municipal Roads General Permit standards. Culvert inlets and outlets will also be stoned. All stone will be provided at the Royalton Town garage and must be trucked to the site and placed in the ditch by contractor. This ditching is to reduce stormwater run off to help prevent road sediment getting into local water ways.

Project Scope:

The project can start after May 1, 2019 and must be completed by June 30, 2019. All invoices must be submitted and received at the Town Office by July 3, 2019. Ditching width must be a minimum of 4ft. All 7-inch stone will be provided by the Town of Royalton at the Town Garage storage site at 4021 VT Route 14, Royalton, VT. **There will be a mandatory site visit on April 1, 2019 and travel to the site to review the project. Please contact Demi Boles or Paul Brock at 802-763-7667**

Bids are due April 9, 2019 by 3pm. Please mail bids to Town of Royalton ATTN Rose Hemond P.O. Box 680 South Royalton, Vermont 05068 or drop off at the Royalton Town Office.
