

Would like to restrict his hours to 65 hrs/wk, which would mean the Station would need to add another hire. Joshua moves to approve Chet to *negotiate* wage increase with Roger. Motion seconded by Moe. Motion approved by vote.

Other Business Private individuals have been asking about how they can discard of solar panels. Solar company's should replace outdated panels, but might not always be applicable. If the Station decides to accept solar panels, Chet would like to charge \$250/panel because there is high-cost risk if they break. The Station should have a list of what it doesn't want to accept, and/or a list of where individuals can take things that the Station does not accept.

Joshua would like to award Roger with plaque to honor his time and work at the Station. Chet will check what is possible with the trophy place in Rutland.

Jenn moves to adjourn. Motion seconded by Joshua. Motion approved by vote.

Meeting adjourned 8:19pm.
